

## CNC MACHINING SERVICES ON A LARGE SCALE

**Five-sided machining**

**Large turning capabilities**

**Capable of milling and  
turning in one operation**

**Versatile solutions for parts  
too large for a standard  
CNC machine**

Conveniently located in McPherson, Kansas, PEM Manufacturing Services LLC offers large-scale CNC machining services. Equipped with an MTE FBF-M Milling Machine capable of milling and turning in one operation we can get the job done whether it's a single prototype or a large order. We can handle medium to large scale, highly complex pieces up to 26 feet long and 10 feet tall. Designed for flexibility and high-precision, the MTE FBF-M has four different milling heads, five-sided machining in one clamp, and large turning capabilities over 80 inches. Call us today to schedule your next medium-to-large scale machining project.
